ADDITIONAL INFORMATION

These are the summarized details.

- We have technical drawings, inspection reports, and other supporting documents.
- We can arrange an on-site inspection of the buoy.

You may request these details (documents, inspection), subject to confidentiality duties. If we accept your request you are only allowed to use our Additional Information for the purpose of evaluating the purchase of this CALM Buoy and its suitability with your project, not to be shared to other parties, as they require our clearance. Violations of confidentiality duties are subject to unlimited liability, and will be judged by SIAC arbitration in London, in English. Rarely an end-customer buys an expensive Oil & Gas piece of equipment when their contractor has leaked information that may end on their competitors. These duties are simple and effective to protect the sensitive information of the buoy that you are purchasing, and your end-customer's interests, and if accepted:

Please, feel free to request us the additional documentation or to arrange an on-site inspection.
